

## See nothing, hear everything

Bass is a vital element in our enjoyment of sound. It's true for both music and movies, and it's as true for custom installation as it is for an audiophile's two-channel hi-fi. The ISW-3 is an incredibly versatile and compact in-wall and in-ceiling subwoofer, capable of providing high-quality bass output in spaces that may have previously missed out on this vital element, including kitchen cabinets! Its balanced design, featuring 2 x 6.5in drivers, means that it can be placed in a variety of locations without causing vibrations. Powered by a separate audiophile-standard 250W Class D amplifier the SA250 Mk2, the system keeps its cool even when you listening to demanding movie soundtracks at high volumes.

## ISW-3 Technical Specifications

<b>Drive units</b>	2 x 165mm (6.5in) Paper/Kevlar® cone
<b>Frequency range</b>	-6dB at 21Hz and 222Hz adjustable (EQ at A)
